Independent Auditor's Report

To the Board of Governors of Holland College

We have audited the accompanying financial statements of Holland College which comprise the statement of financial position as at March 31, 2017 and the statements of operations, changes in net deficit and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Holland College as at March 31, 2017 and the results of its operations, changes in net deficit and cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Holland College

Notes to Financial Statements

March 31, 2017

1. Significant Accounting Policies

Nature and Purpose of Organization	Holland College is incorporated under the Holland College Act of the Province of Prince Edward Island. Dedicated to excellence in performance, the College stands committed to providing quality life-long learning opportunities to support learner, industry and community development. The College is a registered charity under the Canadian Income Tax Act and accordingly, is exempt from income taxes, provided certain requirements of the Act are met.
Basis of Accounting	<p>The financial statements include the accounts of the College's wholly owned subsidiaries, ATHI Enterprises Inc. and P.E.I. Institute of Adult & Community Education Inc.</p> <p>The College does not consolidate the entity Holland College Foundation Inc. which operates under its control. 1. Significant Accounting Policies (continued)

Property and Equipment Purchased property and equipment are recorded at cost. Contributed property and equipment are recorded at fair value at the date of contribution. Assets acquired under capital leases are amortized over the estimated life of the assets. Repairs and maintenance costs are charged to expense. Betterments which extend the estimated life of an asset are capitalized. When property and equipment no longer contributes to the College's ability to provide services, its carrying amount is written down to its residual value.

Property and equipment are amortized on a straight-line basis using the following annual rates:

Asset	Rate
Buildings	2.5%
Major building alterations	5%
Equipment	20%
Parking lot	5%

Property and equipment under construction are not amortized until completion.

Program Development Costs Program development costs are being carried at cost net of accumulated amortization. Such costs are being amortized to income on a straight-line basis over a five year period.

Vacation Pay Vacation pay is accrued for all employees as entitlements to these benefits are earned in accordance with various employment agreements with College staff.

Retirement Obligations Certain obligations have been valued using actuarial estimates. Other obligations are recorded as an expense and accrued in the period an employee retires.

1. Significant Accounting Policies (continued)

Pension Plan

The College maintains a contributory defined-benefit pension plan which covers substantially all of its employees. The benefits are determined using a career average formula for service accrued subsequently to January 1, 2007 and best average formula for service accrued prior to that date. The defined benefit obligation is determined using an actuarial valuation prepared for funding purposes. Pension fund assets are measured at fair value at the balance sheet date. The total cost of the defined benefit plan for the period is comprised of the current service cost, finance cost, and remeasurements and other items. The current service cost and finance cost are charged to operations for the period, while remeasurements and other items are charged directly to net assets as they occur.

1. Significant Accounting Policies (continued)

Revenue Recognition

The College follows the deferral method of accounting for contributions, which include donations and government grants.

Operating grants are recognized in the period when received. Operating grants received for a future period are reported as deferred income, until that future period, when they are transferred to revenue. Contributions restricted for the purchase of property and equipment and program development costs are deferred and amortized into revenue on a straight-line basis at a rate corresponding with the amortization rate for related assets.

Operating grants recognized in the year in lieu of facility leases are recorded as a reduction to rental expense.

Amounts received for tuition fees and sale of goods and services are classified as deferred revenue and are recognized at the time the goods are delivered or the services provided. Amounts received as compensation from foreign operations are recognized as earned at the time of transfer or when the amount to be received can be reasonably estimated and collection is reasonably assured.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Land contributed at no financial cost is recorded at fair market value with a direct increase to equity in the form of investment in property and equipment.

Financial Instruments

Financial instruments are recorded at fair value at initial recognition.

In subsequent periods, equities traded in an active market and derivatives are reported at fair value, with any change in fair value reported in income. All other financial instruments are reported at cost or amortized cost less impairment. Transaction costs on the acquisition, sale or issue of financial instruments are expensed for those items measured at fair value and charged to the financial instrument for those measured at amortized cost.

Financial assets are tested for impairment when indicators of impairment exist.

1. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in accordance with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

Foreign Currency Translation

The College has a relationship with seven foreign educational institutions located in China. The compensation derived from this relationship is in the form of a portion of tuition fees collected by the institutions. Revenue generated is recorded in the Canadian dollar equivalent at the time of transfer of such funds to the College or when the amount to be received can be reasonably estimated and collection is reasonably assured. Surplus funds generated from prior arrangements are adjusted to the Canadian dollar equivalent on a monthly basis at the month end rate.

2. Investment in Subsidiary

The College controls Justice Knowledge Network Inc. ("JKN") by virtue of its 100% ownership of the common shares of the company. JKN is a for-profit company incorporated under the Companies Act of Prince Edward Island and commenced operations on April 1, 2013.

JKN has not been consolidated in the College's financial statements, as the College has chosen to account for its investment in this subsidiary using the equity method. Financial statements of JKN are available upon request. A financial summary of this non-consolidated entity as at March 31, 2017 and 2016 and for the years then ended is as follows:

	2017	2016

6. Derivatives

Derivative financial instruments are financial contracts that derive their value from underlying changes in interest rates, foreign exchange rates, commodity prices or other financial measures. Such instruments include interest rate, foreign exchange and commodity contracts. The College utilizes interest rate swap contracts to manage the risks associated with its financing activities.

The College has entered into various interest rate swap agreements with the Royal Bank of Canada. The College obtains quotes from the Royal Bank of Canada to determine the mark to market or break value of the swap loans as of March 31, 2017 and 2016, respectively and these values are used to determine the fair value of the swap loans as detailed below. Under the terms of the swaps, the College pays fixed interest quarterly and receives interest at the 30-day Bankers Acceptance rate.

8. Pension Plan

The College maintains a contributory defined-benefit pension plan which covers substantially all of its employees. The pension plan provides benefits based on the length of service and average earnings. Average earnings is determined using career average formula for service subsequent to January 1, 2007 and best average formula for service prior to that date.

The accrued benefit obligation is determined by independent actuaries. The last actuarial valuation was determined as of December 31, 2015.

The College changed its pension plan structure for new entrants commencing April 1, 2015. The new pension plan structure differs from the existing pension plan for individuals enrolled prior to this date as it incorporates several different attributes used in determining the College's pension liability. In addition, pension benefits for new members joining on or after April 1, 2015 will not be indexed to inflation. Individuals enrolled prior to April 1, 2015 will continue under the existing plan and will be entitled to benefits as previously determined.

Pension plan assets are held in trust and are not available for operating purposes of the College. Information about the College's defined-benefit plan is as follows:

14. Commitments

The College has operating leases for its premises at Slemon Park. The premises are leased at a base rent of \$ 5.56 per square foot under a lease expiring December 31, 2018. The base rent will increase each July 1st and November 1st, respectively, during the terms of the leases by a percentage equal to the CPI for Prince Edward Island for the previous calendar year. In addition to the lease at Slemon Park, the College also has operating leases for other premises. The premises are leased at a base rent of \$ 13.21 per square foot. Further, the College also signed a five year service agreement in April 2016 with Kongsberg Maritime Simulation. The annual payment for 2017 is \$ 211,323. increasing by 2% each year thereafter. In addition, the College received an operating grant during the year for one of its premises at Slemon Park in lieu of rent, heat and electricity in the amount of \$ 402,668. (2016 - \$ 402,668.). This grant has been recognized as expense recoveries and as a reduction to rental expense. The minimum annual lease and service contract payments for the next five years are as follows:

15. Financial Instrument Risks

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The College is exposed to credit risk resulting from the possibility that a customer or counterparty to a financial instrument defaults on their financial obligations; if there is a concentration of transactions carried out with the same counterparty; or of financial obligations which have similar economic characteristics such that they could be similarly affected by changes in economic conditions. The College's financial instruments that are exposed to concentration of credit risk relate primarily to cash and accounts receivable. Of the \$ 3,313,323. in cash, one financial institution held \$ 3,109,451. of all cash assets. The total cash held with one financial institution exceeded the maximum insurable amount from the Canada Deposit Insurance Corporation by \$ 3,009,451. In addition, the College held cash of \$ 203,341. with a foreign bank which was uninsured. Of the College's \$ 12,363,343. in trade accounts receivable, government agencies accounted for 79% of trade receivables. The majority of the College's receivables are from government sources and the College works to ensure they meet all eligibility criteria in order to qualify to receive the funding.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The College is exposed to interest rate risk through its long-term debt obligations which are issued with floating interest rates. To manage its current and anticipated exposure to interest rate risks, the College has entered into eleven (2016 - eleven) interest rate swap contracts whereby it has fixed the interest rate on a total of \$ 37,169,000. (2016 - \$ 39,897,000.) of notional principal against the floating interest position assumed by the Royal Bank of Canada. The carrying value for the swap contracts is the notional principal noted above. The swap contracts have effective interest rates and maturity dates as disclosed in Note 6.

16. Contingent Liability

The College has provided a guarantee on an operating loan, available to a maximum of \$ 200,000. held by Justice Knowledge Network Inc. ("JKN"), a wholly-owned subsidiary of the College. The operating loan is being used to finance operations of JKN and is unsecured.

17. Subsequent Events

Subsequent to year end, the College completed the purchase of real property in Charlottetown, Prince Edward Island at a cost of \$ 1,417,038. upon which is to be constructed a student residence building.

Prior to year end, the College began a program of major capital upgrades to existing infrastructure through the Canada-Prince Edward Island Post-Secondary Institutions Strategic Investment Fund program. Total estimated costs related to these projects amounts to \$ 14,977,962. Costs incurred prior to year end amounted to \$ 867,131. with the remainder to be incurred in the subsequent fiscal year. The cost of these upgrades will be financed through federal and provincial capital grants as well as a \$ 1,823,000. contribution from the Holland College Foundation.

Subsequent to year end, the College secured additional long-term debt financing available to a maximum of \$ 12,937,481. for the purpose of financing the construction of the student residence building as well the major capital upgrades to existing infrastructure discussed above.

18. Comparative Figures

Certain comparative figures have been restated to conform to the current year's presentation.
